To calculate your MyMathLab homework grades for your grade record sheet:

1. Open your view of the MML gradebook.

2. Use the column labeled "percent". You may need to click 'see score'.
       (If it says "past due", it's 0%. Your score is 0/10.)

Find the percentage of 10 points
   Examples follow.

3. Convert percentage to decimal by moving the decimal point two places to the right:
4. Multiply the decimal by 10 points:
5. Round to the nearest whole point to find the numerator of your grade:
6. The denominator is 10.
       a. 100% is 1.00, 1.00 x 10 = 10, 10 rounds to 10, 10 points is 10/10
       b. 78% is .78, . 78 x 10 = 7.8, 7.8 rounds to 8, 8 points is 8/10
       c. 92% is .92, .92 x 10 = 9.2, 9.2 rounds to 9, 9 points is 9/10
       d. 65% is .65, .65 x 10 = 6.5, 6.5 rounds to 7, 7 points is 7/10
       e. 7% is .07, .07 x 10 = 0.7, 0.7 rounds to 1, 1 point is 1/10

7. Write your HW score on your grade record sheet.

8. Repeat for all MyMathLab assignments due so far.
