

Math 72 Assignment Types and Grade Calculation

Assignment Types	Grading method	Points per assignment	Total points	Percent
Online Homework assignments in MathXL (~59)	Correct work, no partial credit	10 points	~590 points	~19% of grade
Predictable Quizzes (PQ) (~49 for Option A, 2 for Option B)	Correct work, partial credit	Option A: 10 points Option B: 0 points	Option A: ~490 points Option B: 20 points	Option A: ~16% of grade Option B: <~1% of grade
6 Exams	Correct work, partial credit	Option A: 200 points Option B: 280 points	Option A: 1200 points Option B: 1680 points	Option A: ~38% of grade Option B: ~54% of grade
Study Skills (SS) 190 points are required – If you earn an A on the first exam you can choose automatic full credit (no extra credit).	Option 1: partial credit Option 2: Syllabus Search & Tutoring graded with partial credit and Coursera “Learning How to Learn” graded all-or-nothing	Option 1: 10 or 20 points, Up to 49 pts extra credit for early submissions and 2-sided printing, with substitutions. Option 2: 150 points, Up to 70 pts extra credit for early submissions, No substitutions.	190 points	~6% of grade

<p>Comprehensive Final Exam (FE)</p> <p>Must earn at least 50% on final exam and have a passing average to pass course.</p> <p>Students earning at least 90% without rounding will be lifted one additional letter grade or to passing (C)</p>	Correct work, partial credit		650 points	~21% of grade
Final Grade in the Course			~3120 points	100%
<p>Extra Credit:</p> <p>Attendance bonus, ECPQ last class day, Study skills</p>	varies		~168 points	additional ~5%

Final grades are rounded to the nearest whole percent.

Students must earn C or better to pass. Students earning D or F do not proceed to next math class.

Grades are assigned by:

$A \geq 90\%$

$80\% \leq B < 90\%$

$70\% \leq C < 80\%$

$60\% \leq D < 70\%$

$F < 60\%$
